## **Drinkable Functional Foods Provide Extraordinary Antioxidant Benefits**

*Seven Berries & Three Sea Vegetables Combined in Powerful New Bio-Beverages*

VANCOUVER – The results of forty years of scientific evidence on the benefits of antioxidants and inflammatory response have been poured into YouthJuice™ and YouthJuice Restör™, two revolutionary new “bio-beverages” just introduced by Our World Network, Inc.

Seven varieties of the most potent berries known to science are combined with three types of sea vegetables into a delicious drinkable functional food that provides clinically-proven amounts of antioxidants, resveratrol, ellagitannins, fucoidans, and Vitamin D3. Each one-ounce daily serving supplies the body with nutrition to support the immune system, eliminate toxins, and resist harmful free radicals, inflammation, and today’s most pressing health challenges.

“YouthJuice and YouthJuice Restör were developed on the basis of research funded by a Canadian Government Research and Development Grant and based upon breakthrough discoveries around the remarkable benefits of specific types of berries,” said Bob Edwards, Founder of Our World Network, Inc. “Many doctors and nutritionists believe these formulations are the most efficient way to obtain the nutrition we need for maximum wellness.”

Each 25-ounce bottle is composed from seven pounds of seven powerful berries and three potent sea vegetables:

- Elderberries, helps resist inflammation and viruses
- Red Raspberries, rich in antioxidants and Ellagic Acid
- Blueberries, unsurpassed antioxidant capacity
- Blackberries, supports brain health
- Boysenberries, anti-inflammatory benefits
- Blackcurrants, for anti-bacterial, anti-fungal and anti-viral properties
- Cranberries, full of antioxidants and health benefits
- Kombu Fucoïdan, promotes healthy inflammatory response
- Bladderwrack, benefits absorption of nutrients
- Sea Lettuce, supports detoxification

YouthJuice Restōr also contains 18 additional vitamins and minerals that support healthy immune function.

“The benefits of these ingredients are backed by four decades of research,” added Edwards. “YouthJuice and YouthJuice Restōr are great-tasting ways for anyone to improve their health.”

YouthJuice and YouthJuice Restōr are available exclusively through independent business owners of Our World Network, Inc. For more information visit [www.youthjuice.com](http://www.youthjuice.com).

#### **About Our World Network:**

Headquartered in Vancouver, Canada, Our World Network, Inc. is an independently owned company dedicated to providing a richer quality of life for individuals around the globe. Since 2005, it has created a better world by funding disease prevention research, through health-enhancing products, including YouthJuice™ and YouthJuice Restōr™, and by building financial success for its growing network of independent business owners.
